

# Co-mingling Recycling is coming to your area!

## Going Green:

Deffenbaugh Industries is thrilled to be partnering with you on your "going green" initiatives!

Our commingle program allows you to recycle all your paper, #1-7 plastics, chipboard and aluminum all in one bin. No sorting is required! Deffenbaugh has made recycling more hassle-free than ever...just for you!

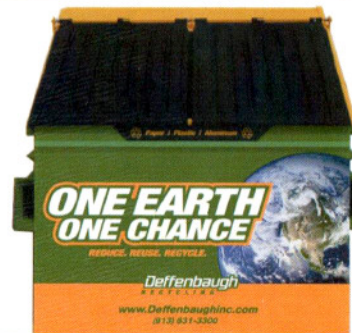

Our representatives will be happy to meet you on-site to discuss specific needs and operational questions. We also help you with the marketing of the program. You send us your logo and we create a customized flyer that you can distribute to individuals to assist in educating them about the new "green" program you are adopting.

## TIPS

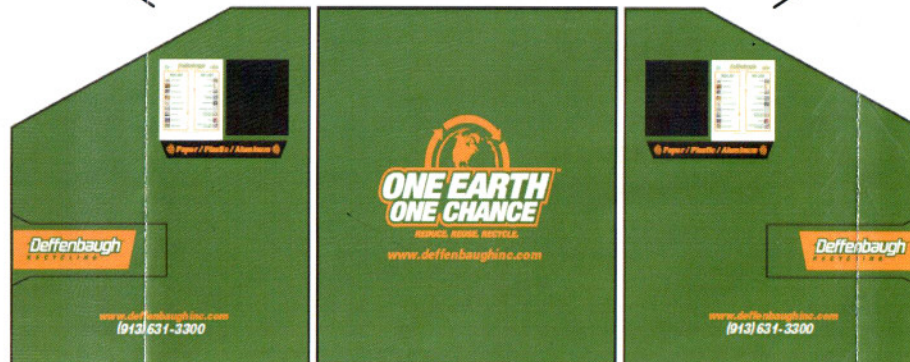

- ⇒ Please empty & rinse all containers
- ⇒ Labels are okay
- ⇒ Flatten large plastic bottles
- ⇒ Look for the symbol on plastics to ensure it is a #1 - #7 that is permitted..

It is vital that those participating in this program do their best to minimize unacceptable items being placed in the containers. Excess contamination levels jeopardize the success of the program.

## Recycling Bins

Available Sizes:  
8 yd
